Mobile Suit Gundam Unicorn:
 Novel by popular Japanese author Harutoshi Fukui
 Character and mechanical designs are provided by
 Yoshikazu Yasuhiko and Hajime Katoki,
 respectively. The series begins in U.C. 0001, at the
 very beginning of human space colonization, when
 Laplace, the residential space station of the
 Federation's Prime Minister, is destroyed by an
 anti-federation group during a ceremony hosted by
 the Prime Minister ushering in the Universal
 Century Calendar. The main story takes place in
 UC 0096, revolving around Banagher Links, a
 seemingly normal boy living and going to school in
 the space colonies. His life changes one day when
 he meets a girl named Audrey Burne, as it results
 in his becoming the pilot of a new Gundam that
 has connections to an item that is a potential
 threat to the Federation's existence called
 "Laplace's Box."

Manga/Anime series written and illustrated by Tite Kubo. It follows the adventures of the hotheaded teenager Ichigo Kurosaki, who obtains the powers of a Soul Reaper from Rukia Kuchiki. Rukia is also a Soul Reaper, trusted with ushering the souls of the dead from the World of the Living to the Soul Society, and with fighting Hollows. Hollows are a kind of monstrous lost soul who can harm both ghosts and humans. His new-found powers force him to take on the duties of defending humans from these corrupted spirits and guiding departed souls to the afterlife. Prompting him to travel to the Soul Society and on journeys to different realms of existence.

Rurouni Kenshin is a manga/anime series written and illustrated by Nobuhiro Watsuki. The story begins during the 11th year of the Meiji era in Japan (1878). It follows a former assassin known as Hitokiri Battosai. Following the revolution he becomes a wandering swordsman. Kenshin Himura vows to never take another life, now wielding a reverse blade sword.

Zipang is a manga/anime written and illustrated by Kaiji Kawaguchi. The newest and most advanced destroyer in the JMSDF DDH-182 Mirai sets sail from Yokosuka on a training exercise with the United States Navy. En route, they encounter a strange meteorological anomaly, which causes them to be transported back in time to June 4, 1942. Despite their initial attempts not to alter history, they soon find themselves gradually drawn into the war. Their rescue of an IJN Intelligence officer Lt. Cmdr Kusaka from his downed aircraft, causes devastating changes to the timeline when he learns of Japan's future. He resolves to create a new stronger version of Japan called "Zipang", no matter what the cost.

Battle Fairy Yukikaze is a military science fiction series written by Chohei Kambayashi. It was followed by two sequels: Good Luck, Yukikaze and Unbroken Arrow. Thirty-Three years before the events of the series, an alien force known as the JAM invade Earth through a dimensional portal that appeared over Antarctica. The UN establishes a defense force (FAF) that manages to push the enemy back to the other side of the portal. They establish bases on the JAM homeworld, a planet named Fairy. The main character, Lt Rei Fukai, pilots the FFR-31MR/D *Super Slyph* (later the FFR-41MR *Mave*) fighter B-503, nicknamed "Yukikaze", equipped with a near sentient AI. Over the course of the series, Fukai and the FAF struggles to defeat the JAM, who have perfected human cloning and planted agents all over the FAF.

**ADVANCED VEHICLE 98
"INGRAM"**

The AV-98 Ingram is constructed by Shinohara Heavy Industries. This labor is lightweight and high-performance model with the best maneuverability currently available in a labor. Specially built for anti-labor engagements, the Ingram is uniquely designed to have a psychological effect on its opponent. It is armed with a 37mm Revolver Cannon which is stored in a special leg compartment, and an electrified stun-stick (similar to the baton wielded by regular police officers) is stored under its arm shield.

AV-98 INGRAM
 Height: 8.02 meters
 Width: 4.37 meters
 Weight: 6.02 tons (standard), 6.62 tons (fully equipped)
 Maximum Lifting Capacity: 2.40 tons
 Minimum Turning Radius: 3.92 meters
 Materials: FRP (Fiber-Reinforced Plastic) and CFRM (Carbon-Fiber Reinforced Material)
 Rollout: April 1998

Mobile Police Patlabor is a science fiction franchise created by "Headgear", a group consisting of manga artist Masami Yuki, director Mamoru Oshii, screenwriter Kazunori Ito, mecha designer Yutaka Izubuchi, and character designer Akemi Takada. The story takes place in what was, at the time of release, the near future of 1998 – 2002. Mecha called "Labors" are developed for heavy construction work. The Tokyo Metropolitan Police have their own Patrol Labors to combat crimes, terrorism and accidents involving Labors. Stories revolve around Special Vehicles Section 2. Noa Isumi with her AV-98 Ingram "Alphonse" maybe the main protagonist, but all of Division 2 play major roles.

Planetes:
Makoto Yukimura's anime/manga series
(1999-2004)
Seiun award for best science fiction series.
(Manga 2002 & Anime in 2005)

"Abandoned artificial satellites.
Tanks jettisoned from shuttles.
Debris generated during space station
construction.

This vast amount of junk floating in space
Space debris, is a very serious threat. This
is a story of 2075, a time in which this
space garbage has become a problem."

The story of Planetes follows the crew of
the DS-12 "Toy Box" of the Space Debris
Section, a unit of the Technora Corporation.
The Japanese Space Agency JAXA served
as a technical consultant to the series.

Dr. STONE

Dr.STONE is a Japanese anime/manga series written by Riichiro Inagaki and illustrated by the South Korean artist Boichi. The show follows Senku, a high school genius who dedicates himself to rebuilding human civilization after a mysterious event transforms all humans into stone for thousands of years. When he wakes up, he finds that the humans who remain have been reduced to a Stone Age. With each episode of the series, we learn about useful scientific facts. Almost all of the facts and experiments are actually correct. This makes the series all the more fascinating to watch. However, most of the scientific facts are accurate in principle only and does not always apply in real world applications. Dr. Stone is impeccable in educating the viewers about the inventions that are already parts of our daily lives.

"It's not that there are things that science can't explain. You look for the rules behind those things. Science is just a name for the steady, pain-in-the-ass effort that goes behind it." - Senku
